ABOUT ME

I'm great at using Adobe Illustrator and InDesign. While working, I use my extensive knowledge and practice with color theory and the principles of design. Using the design process helps execute the best end result for my projects. When working on a project, I design well thought-out compositions while zeroing in on detail and precision. Along with my love of typography, I am interested in extending my knowledge of type as well as corporate design and illustration. If you hire me I will contribute great work ethic, communication and leadership skills as well as the ability to work with a team.

SKILLS

Professional

WORK EXPERIENCE

Book Keeper

Handy Andy's Quality Vac

2014 - present

At Handy Andy's I use Quickbooks software to pay bills, and keep track of daily income. Quickbooks allows me to pay the sales tax, take care of credit card charges and purchases and monthly payments.
